SIREMS Personnel:

IDPH will be upgrading their licensing database this month. The GLSuites database shutdown is scheduled for Thursday, May 17th at 2:00pm and the downtime is scheduled to last at least through Tuesday May 22nd. This downtime will also effect access to the online license status verification page and the ability to pay for renewals digitally. Though it is planned to be back online by May 22nd, IDPH is asking that all May renewals that intend to pay online do so before 1:45pm on May 17th. Anyone that misses the deadline of the 17th for payment must mail in a department check or money order along with the child support statement to IDPH.

IDPH is warning they will enforce late fees if renewals are not paid and information is not entered or mailed by May 31, 2018. Please feel free to contact our EMS Office with any questions or concerns.

A handwritten signature in black ink, appearing to read 'Bradley M. Robinson'.
